

# Translation task

## Text 1-Foundation

## Φίλοι και Φιλία

- A recent study showed that friendships can help us find purpose and meaning, stay healthy, and live longer. The support, and emotional bonds we have in our friendships are unique. Having good friends in many occasions means having good time.

## Text 2- Higher

When you're very young, your primary social relationship is with your parents. But when children go to school, they start to have deeper friendships that involve, first, doing things together, and then having same interests and activities. Friendships are important no matter the age of person.
